## WHAT IS MATHS COUNTS?

Maths Counts consists of proven teaching and learning techniques, supported by a digital tool to improve understanding of key mathematical concepts and ideas, to accelerate progress and narrow the gap in attainment.

### During the Maths Counts programme, children will:

Develop confidence and resilience in their learning.

Understand what helps them to learn and recognise the progress they are making.

Develop understanding through investigation, exploration and talking about maths.

## WHO WILL DELIVER THE TRAINING IN SCHOOLS?

The programme will be delivered by teaching assistants supported by maths subject leaders.

## WHO IS THIS FOR?

Maths Counts is targeted at learners in KS2 currently working below age related expectations.

## HOW DO WE TAKE PART IN THIS EXCITING OPPORTUNITY?

The Maths Counts programme is funded by the Education Endowment Fund (EEF) and is currently recruiting schools for the trial, starting in September 2016. If you would like to find out more, or secure a place on the trial, please contact us at [info@mathscounts.co.uk](mailto:info@mathscounts.co.uk)
